TECHNO CAMP

PG and Research Department of Computer Science organized an extension activity “Techno Camp”, 15 days orientation programme for school children at Dr. RAJAN Municipal Middle School, Trichy from 27.02.2023 to 17.03.2023. Our department students provided the hands-on training about the usage of Ms-Office for 42 students.

Experiential learning complements institutional learning by providing opportunities for hands-on application of theoretical knowledge. Through practical experiences such as internships, fieldwork, or simulations, students can reinforce their understanding, develop practical skills, and gain insights into real-world challenges.
