

**Key Indicator - 2.3 Teaching - Learning Process**

**2.3.1 Student centric methods, such as experiential learning, participative learning and problem-solving methodologies are used for enhancing learning experience and teachers use ICT- enabled tools including online resources for effective teaching and learning process**

**Experiential Learning - Industrial Frontiers and Field Visits**

Industrial visits, Internships and Project works facilitate the insight of the real working environment and practical learning. Students gain enriched experiential learning from the above programmes through hands on training and gain in-depth insights and acquire practical skills. Industrial visit helps to combine theoretical knowledge with industrial knowledge.

Industrial Frontiers and Field visits embody the principles of experiential learning by allowing students to learn through direct experience and reflection. By engaging with real-world phenomena, students apply theoretical knowledge in practical situations, solidifying their understanding and skills.
