

**Key Indicator - 2.3 Teaching - Learning Process**

**2.3.1 Student centric methods, such as experiential learning, participative learning and problem-solving methodologies are used for enhancing learning experience and teachers use ICT- enabled tools including online resources for effective teaching and learning process**

**ICT Tools - E – Resources**

E-resources play a crucial role in supporting student learning by providing easy access to a diverse range of educational materials, fostering independent learning, and keeping students updated with the latest information in their field of study. E-resources offer a wide range of content including textbooks, research articles, multimedia resources, and interactive learning materials. This variety caters to different learning styles and preferences, enhancing the learning experience. The college library is a DELNET member, which allows students and faculty to access papers and publications related to their research projects. The completely automated campus library has a plethora of E-Books and E-Journals to choose from.
