NIRMALSUITE™ 2014
A CLIENT/SERVER LIBRARY MANAGEMENT PACKAGE
HARDWARE CONFIGURATION FOR SERVER / CLIENT SYSTEMS
[BackEnd Server: Oracle 11G or Windows Microsfot SQL Server 2008
FrontEnd Tool: Microsoft Visual Basic 2010]

SERVER SYSTEM

OPTION I: Intel® Xeon® Processor Based Server

Model A

- One Socket Tower (Approx. Price Rs55,000)
- Intel Xeon E3- 1220v2 CPU (Quad Core)
- 3.1. Ghz 8 MB Cache,
- 1600 MHz, 1x4GB Memory,
- 1x500 GB SATA 7200 RPM, 3.5" Simple Swap
- MULTI BURNER, Integrated RAID 01 (SR C100)
- 3 Years Onsite Warranty

Model B

- One Socket Tower (Approx. Price Rs80,000)
- Intel® Xeon® Processor   E3- 1220v2 CPU (Quad Core)
- 3.1 GHz / 1600 MHz / 8 MB
- Memory 1 x 8 GB
- Open Bay, 2.5" Hot Swap SAS/ SATA
- Multi Burner, RAID 01 in built (SR M1015) + Add. RPS Capable Model
- Warranty**: 3 years onsite

Model C

- Two socket tower (Approx. Price Rs90,000)
- Intel Xeon E5 2403(Quad core)
- 1.80Ghz, 10Mb cache, 1066Mhz, 1x8GB Memory, 1x500GB SATA
- 3.5 simple swap
- Multi Burner, Integrated Raid 01(SR C105)
- 3 years Onsite Warranty

Nice/14-15/30   30-Jul-2014

Dear Nice Clients:

NirmalSuite™ 2014
A State-of-the-Art Library Management Package

You will be pretty aware that Microsoft had stopped all support to the 12-year old Windows XP on April 8, 2014, forcing the entire computer world to switch over to Windows 7/8.1. The good news is that Windows 7/8.1 are beautifully designed with easy scalability and security reflecting the emerging recent technologies. The bad news is that Applications designed and developed for Windows XP will not run on Windows 7/8.1. Operating Systems decide the fate of development tools and apps.

We cannot afford to be out of sync with OS, nor can we ignore the sign of times. Library should be trailblazing, not trailing behind, in updating the software for library management. We have brought out a brand new NirmalSuite™2014—a client / server package running on the new Windows 7/8.1. We have selected Oracle 11g Release 2 / MS SQL server 2008 as back-end servers, and Graphical User Interface with MS VB.Net 2010.

For more than 300 existing customers, we have offered an attractive discount price. To avoid security threat to the existing programs, you had better switch over to the new version at the earliest in the pure interests of the academic community. An array of new amazing features are added along with a few more modules—Self-Charging System, Self-Discharging Systems, SMILES, DREAMS and WebPAC.

1. Quotation for the New Version NirmalSuite™ 2014
2. Hardware Configuration for optimal functioning of New Programs
3. New Features of the NirmalSuite™ 2014
4. Checklist before calling for Installation

You would be happy to note that your entire data will be migrated to Oracle 11g / MS SQL server 2008, at no cost.

Avail yourself of the new offer valid for a short period.

Looking forward to continuing our co-journey on new bandwagon!

Yours professionally,

Louis S. Venugopal

REST IN PEACE
WINDOWS XP
2001 - 2014

TAKING CARE

1. Oracle Server runs on a stand-alone **dedicated system**. In a client-server package, server does the entire data processing of the client's queries and passes the results to display at the client's system. So utmost care should be taken not to bother the server with the other office works. No **internet connection** and **anti-virus** should be installed. Anti-virus would block the firewall and take control of it.

2. Be sensitive to your Data. If lost, everything is lost. Take BACKUP **daily** at least on two systems (server and client or on two clients if server is not easily accessible) at the end of the day. No slackening is permissible. If something happens to the server, we have re-install oracle and restore the data from the backup only. Backup option is available in **NIRMALU** under BarMenu *DataBridge*. The backup is stored in "C:\Users\loginuser**NIRBACKUP**" which you may copy to external storage devices hard disk or USB flash drive. While taking back up, please do indexing (rebuild).

3. Firewall should be put off otherwise Timeout error will occur.

4. Every academic year you have to clear history files–HomeRead, Overdues and GateRegis–under NIRMALC - Utility - Initiate. Membership should include all active members only. Those who have left the Institution should be removed then and there.

5. For new installation, free service for one year is allowed. Only Online Software Maintenance (OSM) is available annually for Rs6000. Free to ask for service, not to ask for free service. OSM includes Free Software Updates. Teamviewer14 or later should be installed, and put your system on Internet.

6. Send your queries in advance by email so that it will be easy to resolve the issues.

7. Those who were not in OSM for more than two years should pay Rs4000 for software updates.

8. Entering into OSM is for your own interest. There is no element of compulsion on our part. Unless and until you enter into OSM, you're not entitled to calling for service.

9. Check your data transmission speed. Nowadays network card is available in Gigabytes.

10. Take a print out and keep it on your desk.

11. In case of Server breakdown due to hardware malfunction, you have to reinstall and restore data, for which you have to pay additionally.
