CCW Web OPAC (Online Public Access Catalogue) http://117.244.80.97:8080/Library

Web OPAC is an online system that enables users to access a library's catalogue from any location with internet access. It allows users to search for books, journals and multimedia by title, author, subject or keyword, providing real-time updates on item availability. In addition to basic search functions, Web OPAC often includes features like borrowing history, reservation options and the ability to renew or place holds on items. Integrated with digital resources It offers flawless access to e-books and other online materials. This system significantly enhances the user experience by making library resources more accessible and convenient for students, researchers and faculty, enabling them to efficiently manage their interactions with the library remotely.

OPAC (Online Public Access Catalogue), a digital database that allows users to search for books, journals and other resources available in a library. OPAC often integrates features like real-time status updates on item availability, user account management for book reservations, renewals, and holds, and access to e-resources.

This plays a crucial role in modern libraries by simplifying the search process, improving resource management, and reducing the workload of library staff. OPAC helps enhance the overall user experience, making libraries more accessible and adaptable to the needs of students, researchers, and general users.

Annamalai Nagar, Tiruchirappalli - 620 018, Tamil Nadu, South India.
