

**CRITERION IV****WI-FI ACCESS POINTS****Key Indicator - 4.3 IT Infrastructure****4.3.1 Institution frequently updates its IT facilities and provides sufficient bandwidth for internet connection****Wi-Fi Access Points**

Wi-Fi access points are strategically placed both indoors and outdoors to ensure comprehensive coverage and connectivity. Indoor access points are located in classrooms, libraries, and common areas, providing robust and reliable internet for academic activities and student needs. Outdoor access points are installed in courtyards, quad areas, and parking lots to extend connectivity beyond buildings, supporting activities and enabling seamless internet access across the campus. This arrangement helps maintain a strong network performance, accommodating high user density and diverse usage patterns in both environments.
