# Key Indicator - 4.3 IT Infrastructure

# **4.3.1 Institution frequently updates its IT facilities and provides sufficient bandwidth** for internet connection

#### **Student Biometric Device**

Implementing a student biometric system in hostel ensures secure and efficient monitoring of students' movements. Parents can be reassured of their child's safety as the system accurately records entry and exit times. This technology enhances hostel security by preventing unauthorized access. In case of emergencies or unexcepted absences, administrators can quickly identify students' whereabouts. Moreover, it streamlines administrative tasks, reducing manual attendance tracking. This biometric system promotes transparency and accountability, fostering a safe and conductive environment for students' academic and personal growth.
