Key Indicator - 4.3 IT Infrastructure

4.3.1 Institution frequently updates its IT facilities and provides sufficient bandwidth for internet connection

Printer & Scanner

Printers enable users to produce hard copies of documents, assignments, reports, and research papers, facilitating submission and sharing of physical copies. Scanners allow for the digitization of printed materials, enabling users to convert physical documents, images, and notes into digital formats for storage, editing, and sharing. Together, printers and scanners support academic and administrative tasks such as printing lecture notes, scanning research materials, creating digital archives, and producing professional-quality documents.
