NETWORKING FACILITIES

Key Indicator - 4.3 IT Infrastructure

4.3.1 Institution frequently updates its IT facilities and provides sufficient bandwidth for internet connection

Networking Facilities

Networking facilities in college encompass internet connectivity, intranet systems, computer labs, VPN access, email services, file sharing platforms, and network security measures. These facilities enable students, faculty, and staff to access online resources, collaborate on projects, communicate via email and messaging, and engage in virtual learning environments.
