

**Key Indicator - 4.4 Maintenance of Campus Infrastructure**

**4.4.2 There are established systems and procedures for maintaining and utilizing physical, academic and support facilities – classrooms, laboratory, library, sports complex, computers, etc.**

**Utilization of Physical and Academic Support Facilities**

Regular service has been provided by the optimized physical and academic support facilities in a college that includes regular maintenance, upgrades, and enhancements to ensure they remain functional and conducive to student needs. This includes servicing equipment in labs and libraries, updating software and resources, conducting safety inspections, and organizing events or workshops to promote utilization and engagement among students and staff.

**UTILIZATION OF FACILITIES**

**UTILISATION OF CLASSROOMS**

Teaching Faculty fills a Google form for every class they handle as per their timetable. They provide information such as Class, section, classroom number, their name and department. If the faculty member uses ICT tools during the session, these details are also logged. This process ensures a comprehensive record of teaching activities aiding in academic administration and resource allocation. The google form responses were collected and consolidated regularly. The below figure is a sample for the month of February 2024 for the utilization of classrooms.
