

**Key Indicator - 6.1 Institutional Vision and Leadership**

6.1.1 The institutional governance and leadership are in accordance with the vision and mission of the Institution and it is visible in various institutional practices such as NEP implementation, sustained institutional growth, decentralization, participation in the institutional governance and in their short term and long term Institutional Perspective Plan.

Academic Plan

Prior to the start of the semester, the Head of the department prepare the workload based on preferences, timetables, and faculty members prepare the lesson plans for each paper and submit them to the Principal for approval.

An approved lesson plan contains the course outcomes, course objectives, program outcomes, teaching methodologies, teaching aids, detailed lecture plans, and reference books in such a way that it is well structured. In accordance with the regular syllabus, staff members provide a coherent presentation that follows the course objectives and introduces the paper to the students. Students are already provided with study material and question banks via Google Classroom even before the semester begins, thereby fostering flipped learning.

Staff members will be notified of all the communications from the Principal through Heads of Department from recorded minutes of the meeting notebook.
