Ramps/Lifts for easy access to classrooms

Our institution takes tremendous effort to create a comfortable environment for disabled individuals. Ramp-rails have been constructed in B Block, C Block, and D Block. These ramps are designed for use by differently abled individuals and for carrying heavy loads. The environment supports the independent functioning of individuals, with all pathways, buildings, and transport systems designed to be barrier-free. Lift facilities are available both in the college and in the hostel.
