Title of the collaborative activity	Industrial Visit under MOU
Name of the collaborating agency	Frontline Hospital and Research Institute
Date of the Collaboration activity	22.03.23

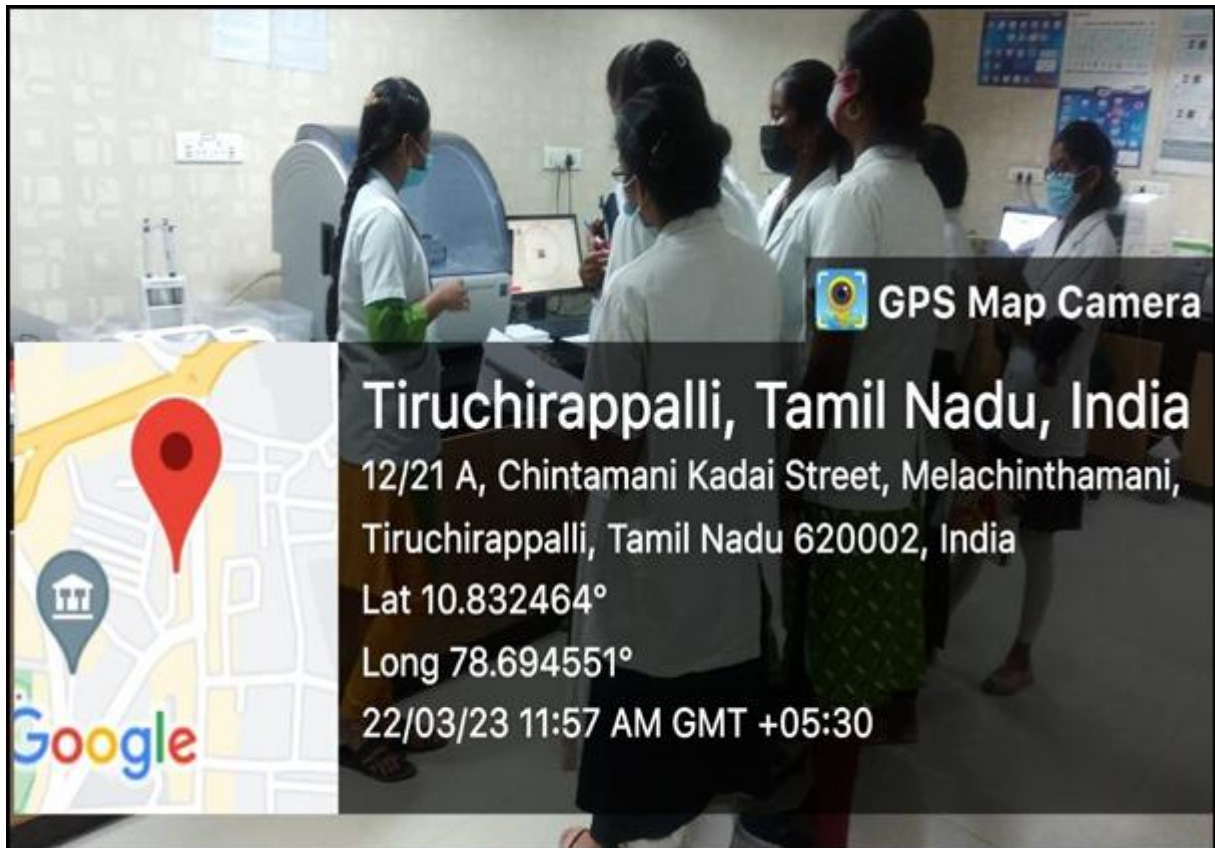

REPORT:

The Under Graduate students of Department of Food Service Management and Dietetics had undergone the Industrial Visit to Front Line Hospital on 22.03.2023, where the students had the opportunity to visit the Clinical laboratory and Dietary department. A total of 28 students participated in the visit and they gained valuable insights into the functions of the hospital clinical laboratory and dietary department during the visit. The students were able to observe various laboratory tests being performed and learned about the different diagnostic tools and techniques. In dietary department, the students were introduced to the various stages of food preparations and serving in a hospital setting. The lab technicians and dietitians explained the process and significance of each test and answer the queries of the students. We would like to extend our gratitude to the Front-Line Hospital authorities for their cooperations in making the visit a success. We hope to organize more such visit in the future under the memorandum of understanding (MoU) between college and hospital.

REPORT:

PG & Research Department of Physics organized a collaborative 30 Hours certificate online course from 10.2.2023 to 10.03.2023 through online mode. About 200 faculties were actively participated and interacted with the resource persons and acquired more knowledge. Through the Research and Publication Ethics programme, faculties gained knowledge about importance of philosophy of science and ethics with the usage of software.

**30 Hours Certificate Online Course on
Research And Publication Ethics
10 February 2023 - 10 March 2023**

Objectives of the Program

- ❖ This course is intended to develop fundamental knowledge of philosophy of science and ethics, research integrity, and publication ethics.
- ❖ Hands-on sessions are designed to identify research misconduct and predatory publications.
- ❖ Provide knowledge about Indexing and citation databases, open access publications, and research metrics (citations, h index, Impact Factor etc).
- ❖ To develop skills for using plagiarism tools for a valid and ethical research report.
- ❖ Suitable use of origin software for data analysis will help researchers to interpret and present data in a scientific manner.
- ❖ The Endnote software is a very useful tool for reference management; it will definitely save time and reduce mistakes in referencing in any research article, thesis and etc.
